

# A Policy Roadmap for Clean Energy

**CASEnergy Coalition**  
CLEAN AND SAFE ENERGY

Supporting nuclear energy  
for environmentally  
sound electricity

[www.CleanSafeEnergy.org](http://www.CleanSafeEnergy.org)

The Clean and Safe Energy Coalition's four-point guide to put the U.S. on a viable path toward realizing its clean energy future:

1

Enact policies to allow the U.S. to take control of its energy security.

2

Ensure access to financing for clean energy projects.

3

Increase investment in clean energy jobs.

4

Address nuclear used fuel storage needs through federal support for recycling and other safe, innovative solutions.
